

“Since the moment that we implemented Print Audit in our computing lab, the ever-present stacks of unclaimed output completely disappeared.”

Laurie MacMillan, University of Utah

INFINITE USER MANAGEMENT: SECURITY BENEFITS

Infinite User Management is Print Audit’s next generation print management solution. The solution provides a host of user and device security features including powerful secure release and push/pull printing capabilities.

Documents left at the printer are a security risk, costly expense and an environmental concern.

Release print jobs by simply tapping your proximity card.

Seamless integration with Google Cloud Print.

Create release codes to easily and securely share documents with others.

Eliminate the risk of print jobs being stored on the hard drive of the device.

Use the "My Print Audit" app to release print jobs from any web enabled device.

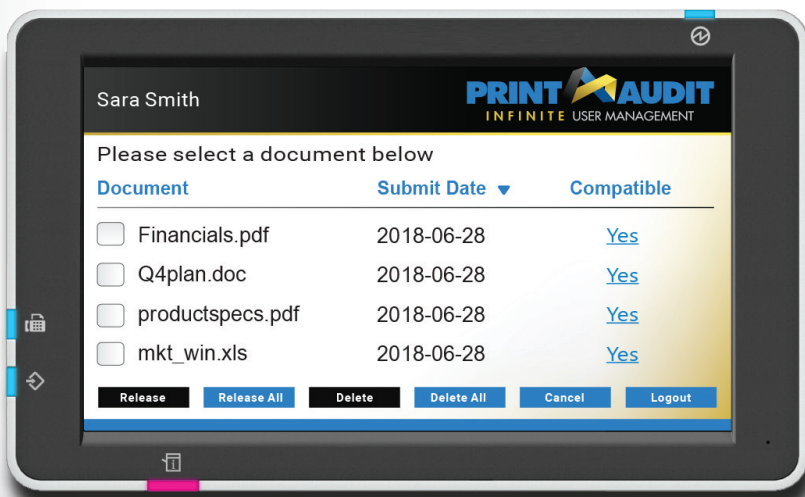

Authenticate from the panel of compatible MFPs.

Secured Document Summary				
For All Time with All Users and All Printers				
Username	Documents Secured	Documents Released	Documents Cancelled/Expired	Pages Cancelled/Expired
Kim.Check	73	50	20	56

Williams.Garst	31	27	4	30
Rutha.Hui	50	23	9	26
Ardelle.Decker	59	58	21	65
Dani.Swinton	80	64	18	72
Miguelina.Allred	14	10	6	11
Julia.Egbert	32	19	3	21
Karly.Mae	16	11	5	12
Teresa.Kalina	83	47	16	53
Su.Sayler	57	38	13	43
Elvina.Crays	36	33	17	37
Vanita.Tabler	47	31	2	35

Plus, security for local printing:

- ✓ Ensure that resumes, financial reports, and other sensitive documentation are 100 percent secure.
- ✓ Generate reports that detail the who, what, where, when and why of every document produced.
- ✓ Setup powerful e-mail alerts to notify you when sensitive materials are printed.
