

## BECAUSE WINNING MATTERS

Use artificial intelligence to deliver court-ready documents. Faster.

Artificial intelligence isn't just the future; it's already in use in hundreds of firms around the world.

Ensure your litigators have the competitive edge with Litigation Companion™, a Microsoft Word add-in that allows them to ensure their documents won't let them down in court.

### ANALYZE

Review your entire document with one click and view proofreading issues in a consolidated dashboard.

### CHECK CITATIONS, CROSS-REFERENCES & DEFINED TERMS

Quickly review defined terms, references, and citations to ensure validity, accuracy, consistency, and clarity.

### FIX MISTAKES

Locate and remedy mistakes such as unpaired quotation marks, spacing variations, inconsistent numbering, phrases, and case-specific information.

### Purpose built for litigators

Different types of lawyers need different tools to support their workflow.

### Firm-wide solutions

The Companion Suite also includes Contract Companion®, Change-Pro® Premier, and DocXtools Companion, and provides firm-wide value.

### Proven technology

Built on the same platform that is already used by tens of thousands of legal professionals globally.

A litigator's work is court-oriented, but most of their time is spent preparing documents. By accelerating tedious document review and editing tasks, Litigation Companion ensures they can focus on what really matters—winning for their client.
